The Scottish was a very good completion despite having only four sheets. There was slight confusion re the draw- caused by lack of communication within the teams.

The proximity of the Tunnocks and Scottish competitions meant everyone was very tired. Next season a gap of a week will be tried.

### Wheelchair Curling Opportunities

Currently 9 in the British Curling Performance Programme, which includes Podium Potential. In conjunction with Scottish Disability Sport Talent ID/Transfer, there is now a Central Development Junior Squad, which has around 5 members.

An area which needs to be developed is Women into Wheelchair Curling, need to look at ways to promote this.

Better knowledge of classification is required so people have a clearer idea of what would/would not be likely to be considered as classifiable and the opportunities available for those who are considered 'not classifiable'. Increasing the standard of wheelchair curlers across the board helps everyone so as many opportunities as possible should be open to those who wish to improve but are 'not classifiable'.

Initiatives proposed

- Update of Scottish Curling website to include information suitable for those coming from outwith the sport, for participation and for performance.
- Skill shots programme launch – August
- Coaching days spread through the season (8?)
- Advice on Physical preparation
- Information on classification to go out with invitation to squad

Skill shots is a programme devised by Sheila for curlers to monitor their own progress throughout the season.
